

# Exceptional Care FOR WOMEN

Ellen Arendt, MD • Jody Boydston, MD • Melinda Bron, MD • Abigail Brubaker, DO • Diedre Wagers, MD • Natalie Ballweber, PA-C

You may schedule a screening mammogram at any of the following locations. Call to set up an appointment at your convenience. You will need your insurance information. Be sure to give the name of your physician or physician's assistant so a report will be sent to that provider.

On the day of your appointment you should wear a two-piece outfit and do not use any powder, deodorant or body lotion.

If your mammogram is normal, you will receive notification from the radiology facility within 2 weeks, and will not receive results from us. If there is anything abnormal about your mammogram, we will be calling you to make sure you know what to do next.

Penrad Imaging	785-9000
